

Sky distribution of candidate members

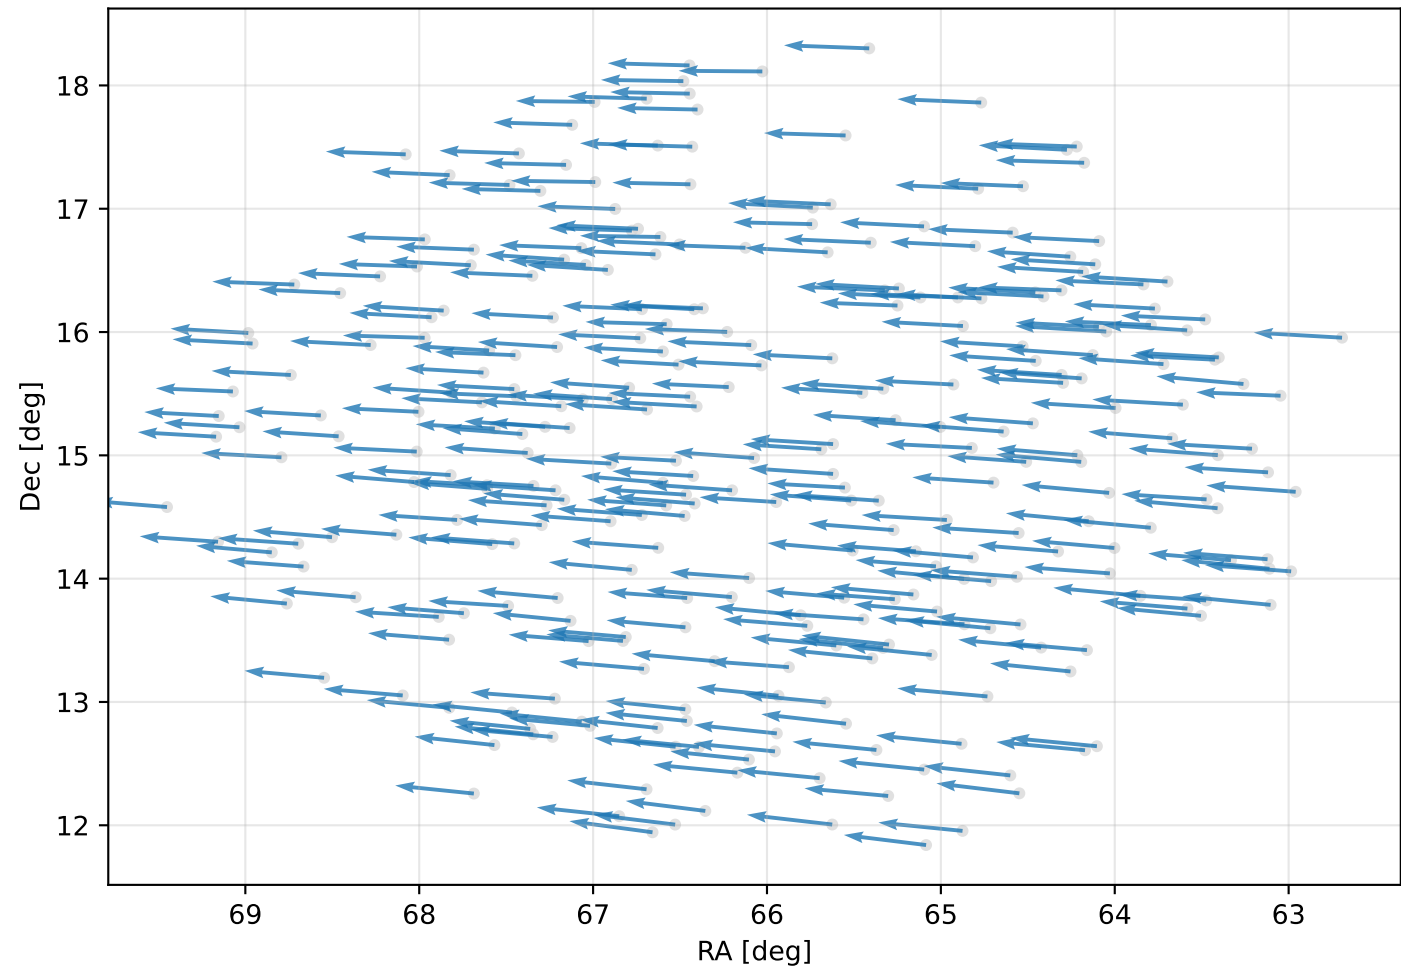

Galactic distribution and recovered apex

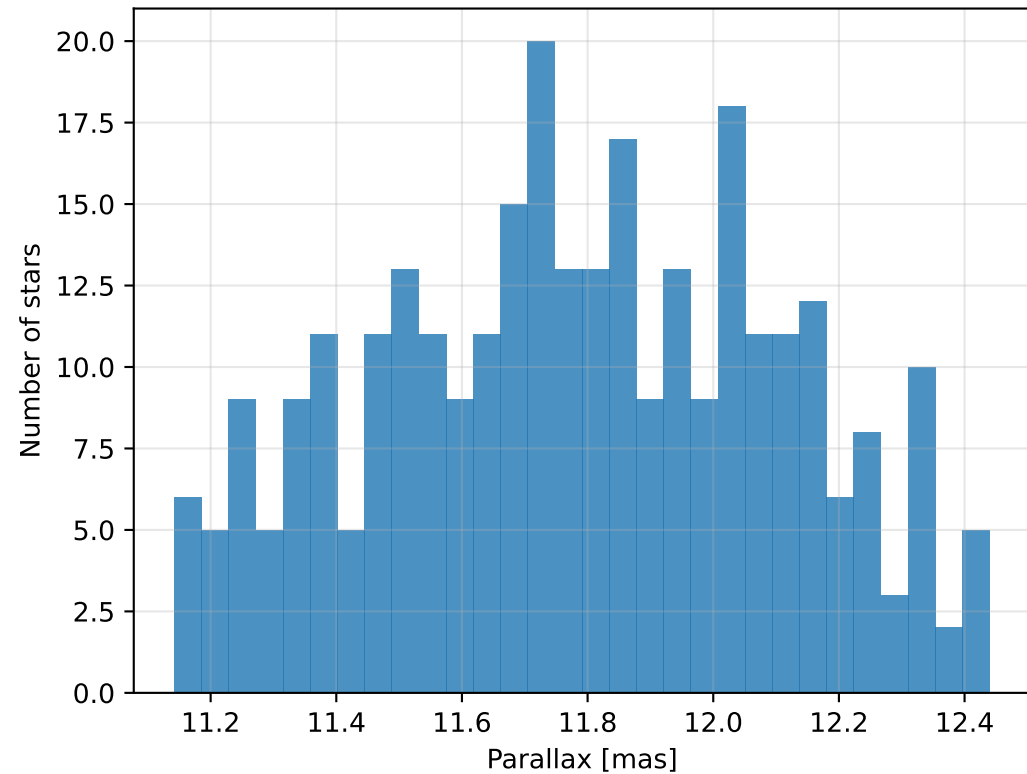

Vector point diagram

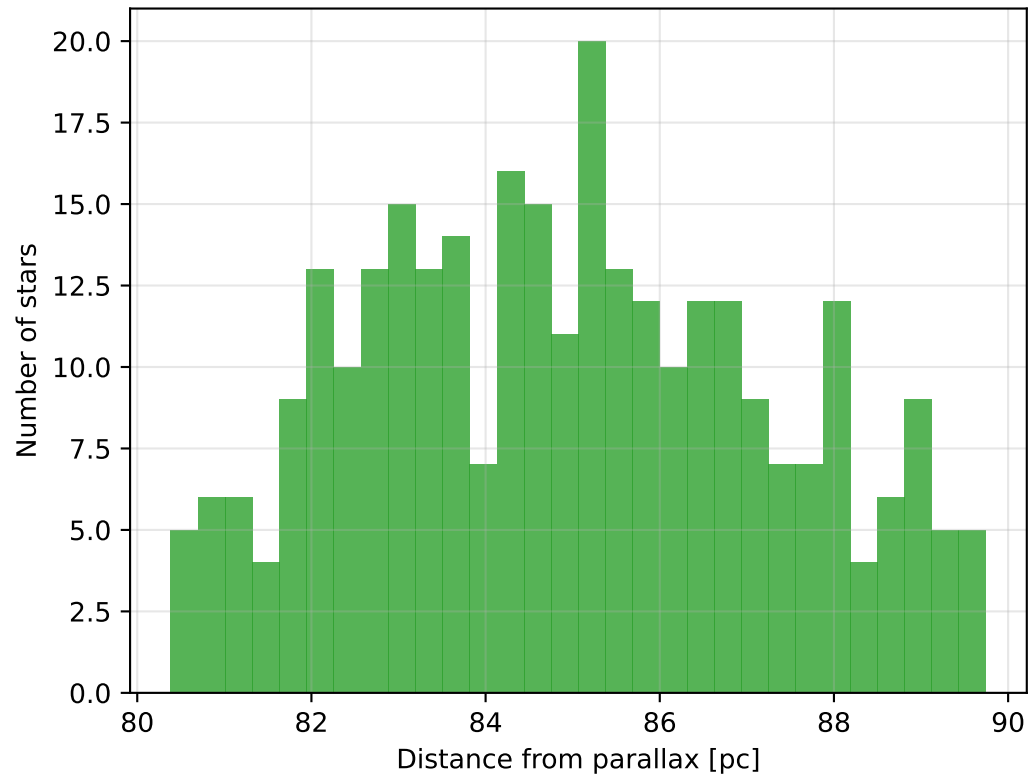

Proper-motion vector field

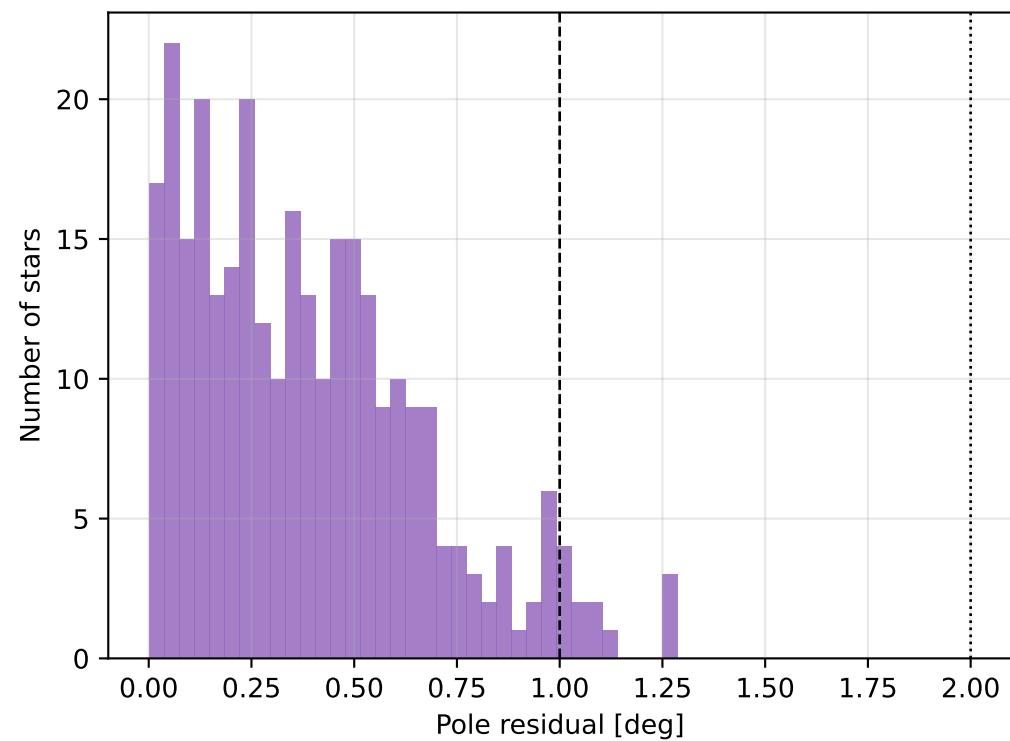

Parallax distribution

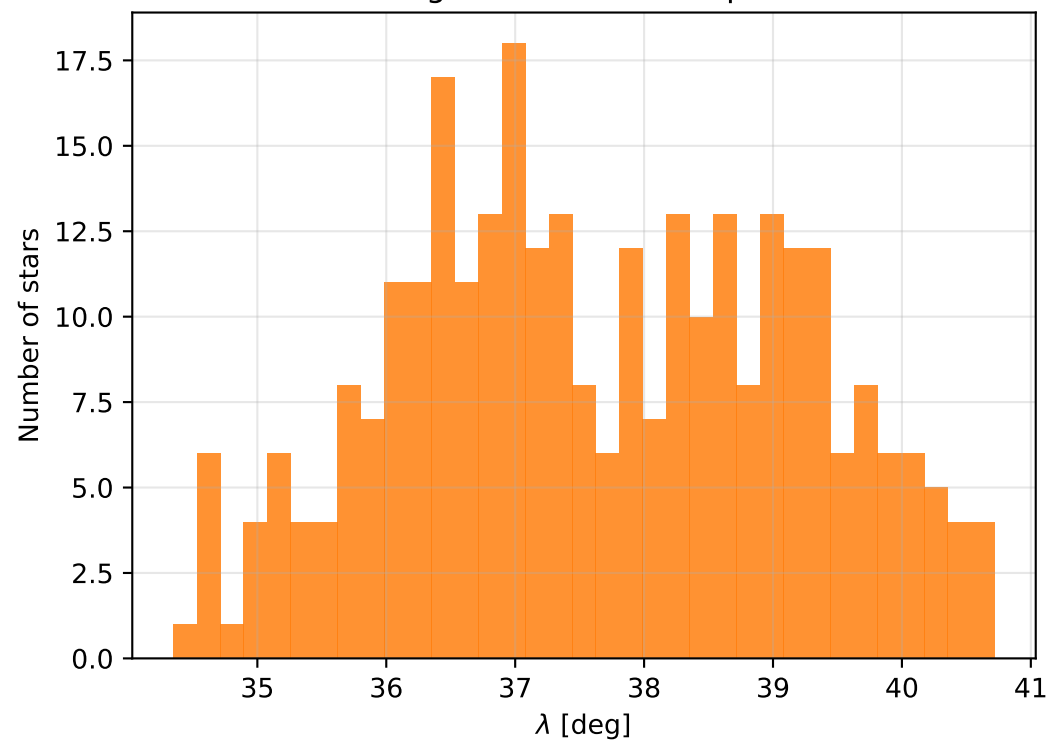

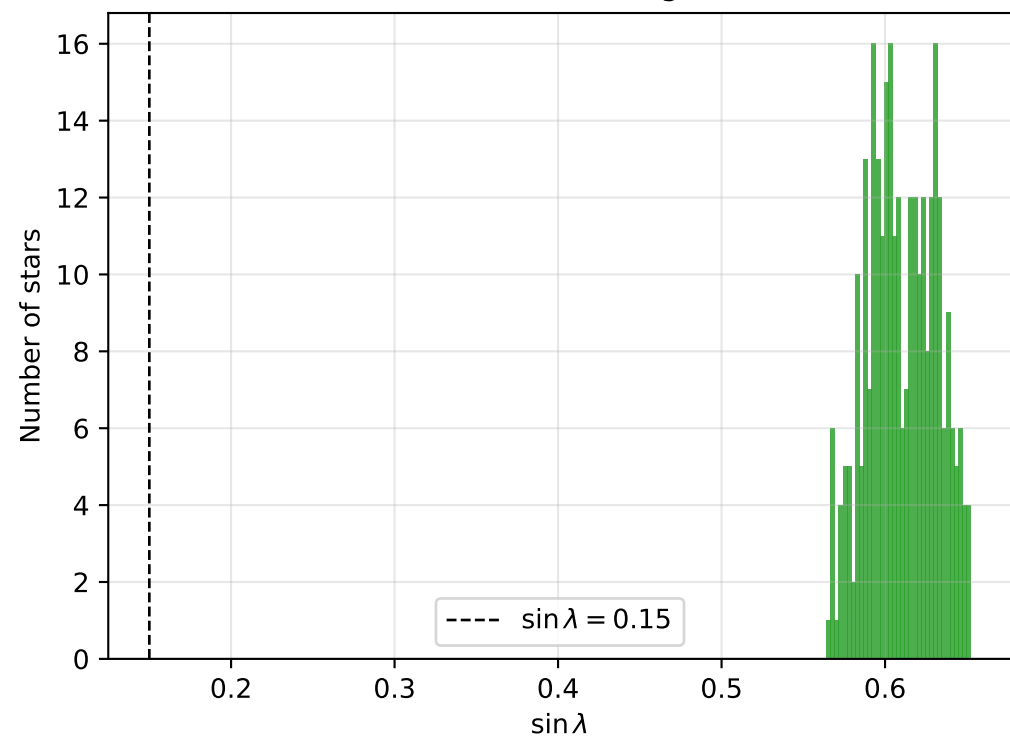

Distance distribution

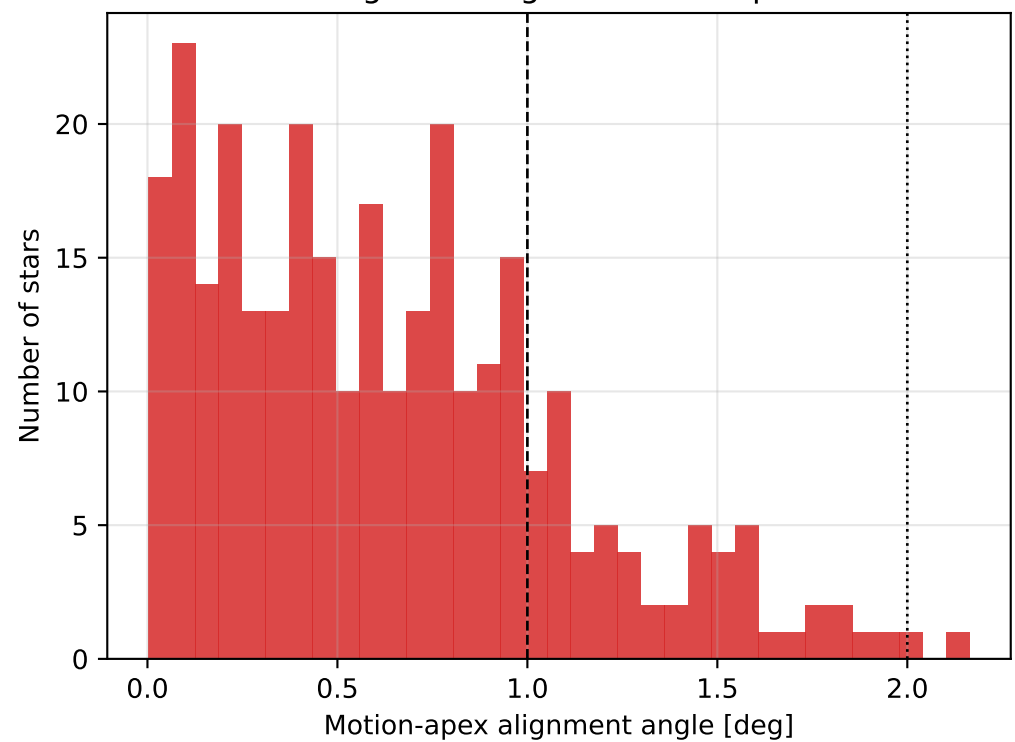

Pole residual distribution

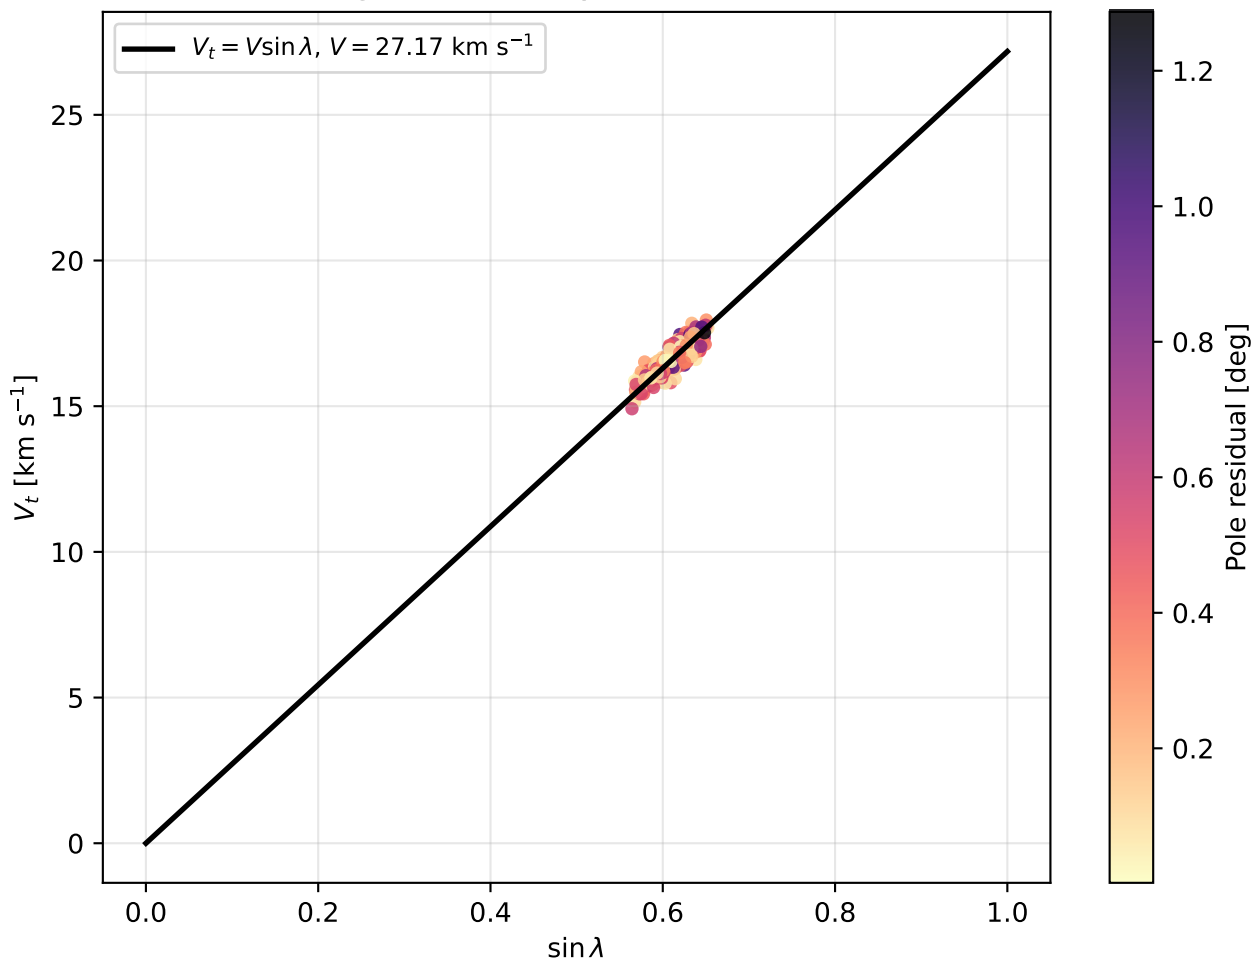

Angular distance to apex

 $\sin \lambda$ refinement diagnostic

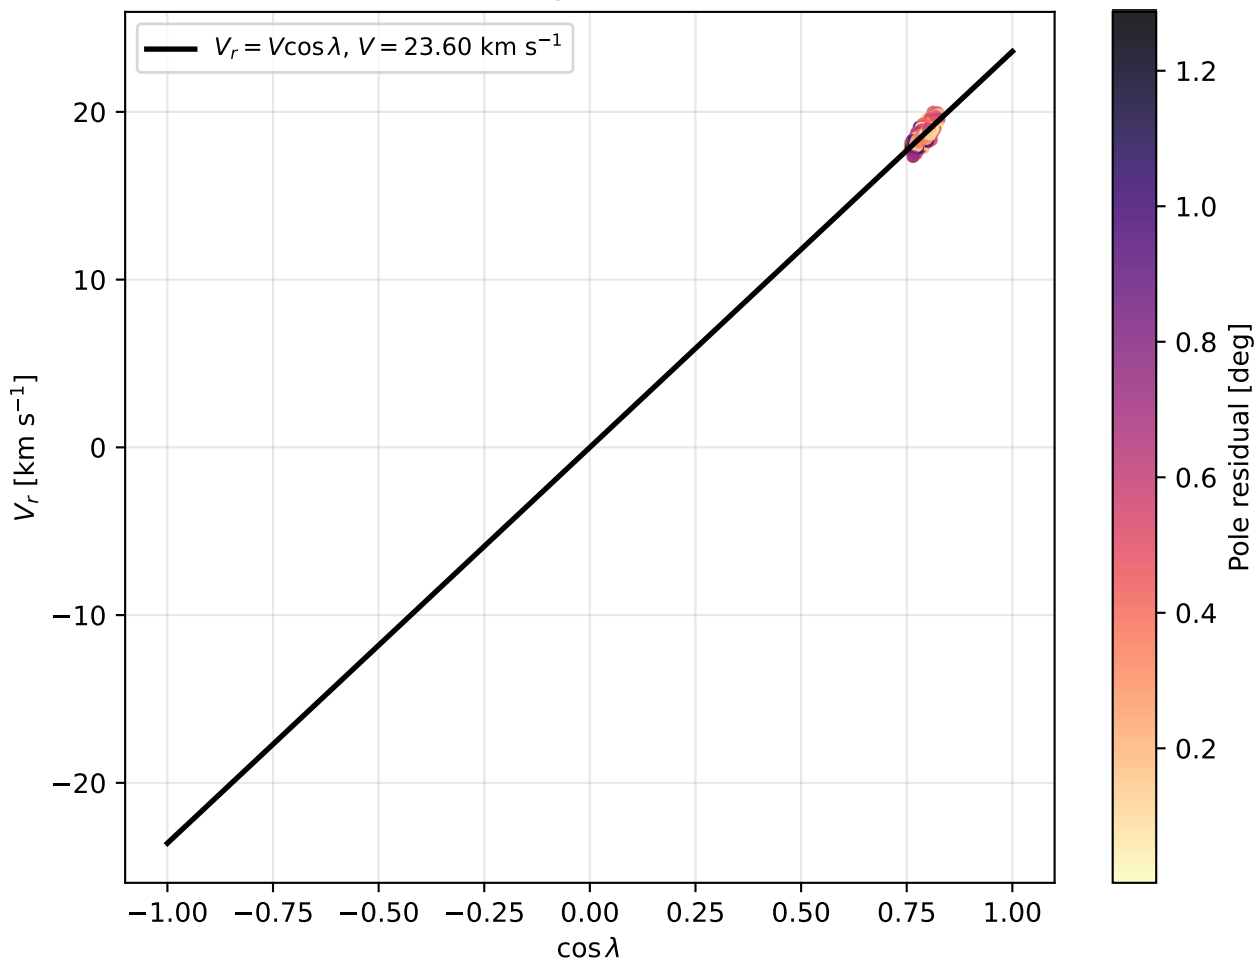

Tangential alignment with apex

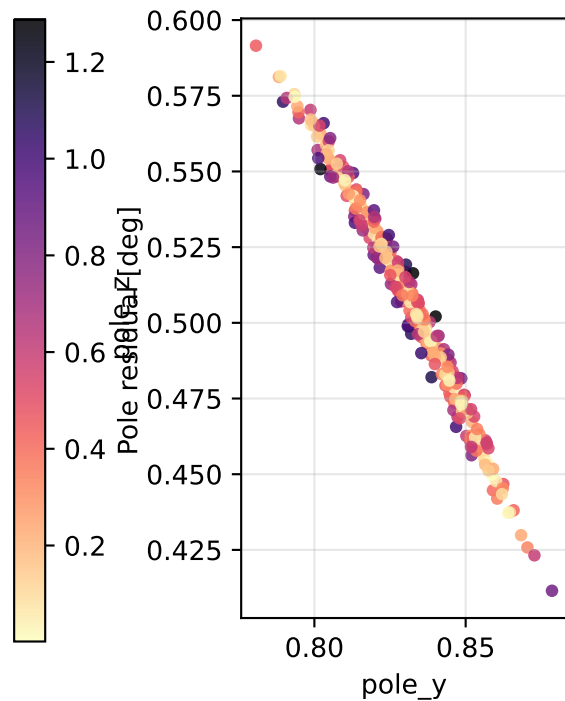

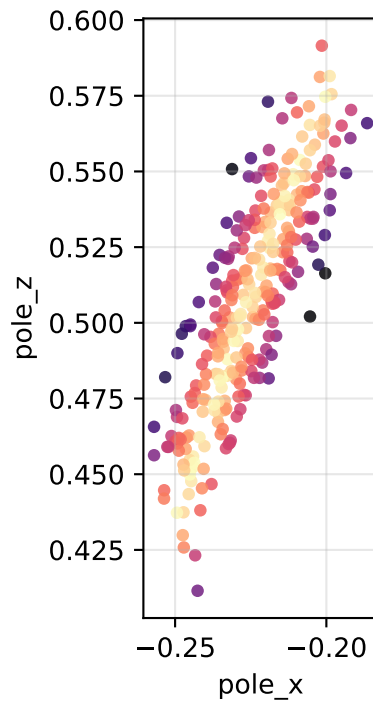

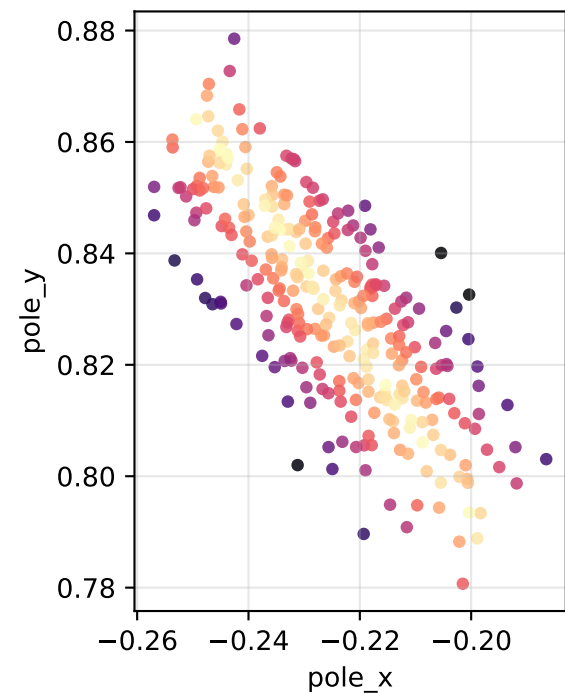

Tangential velocity test: V_t vs. $\sin \lambda$

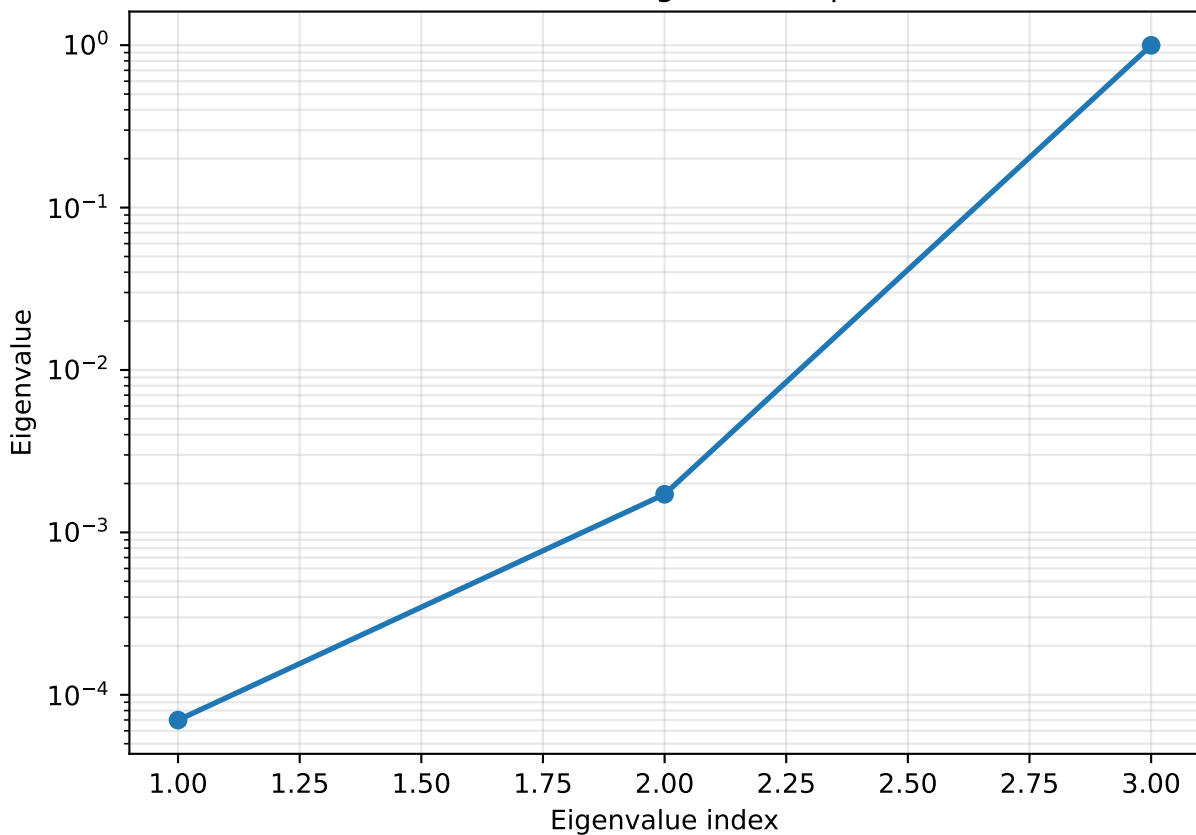

Radial velocity test: V_r vs. $\cos \lambda$

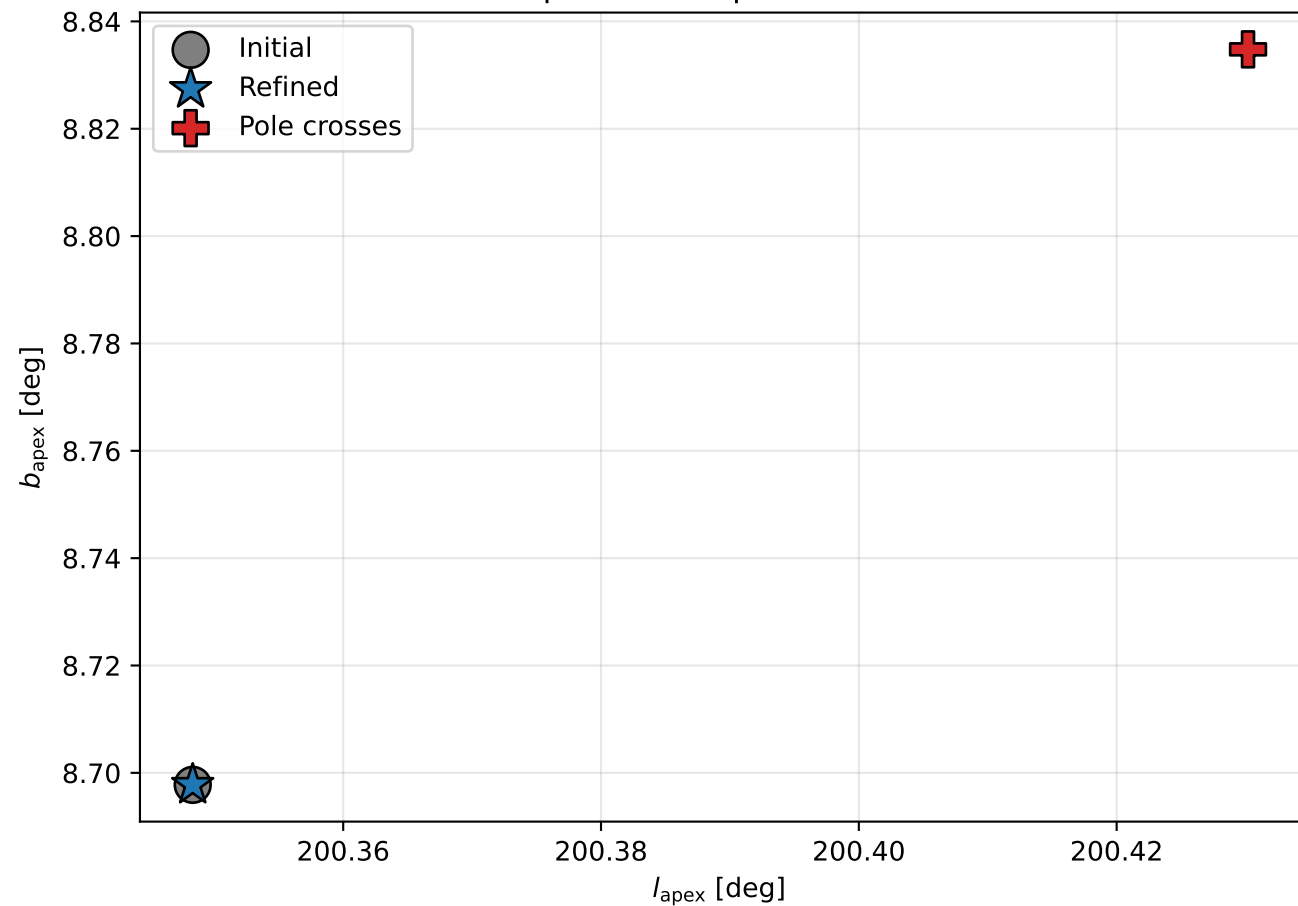

Pole-vector distribution

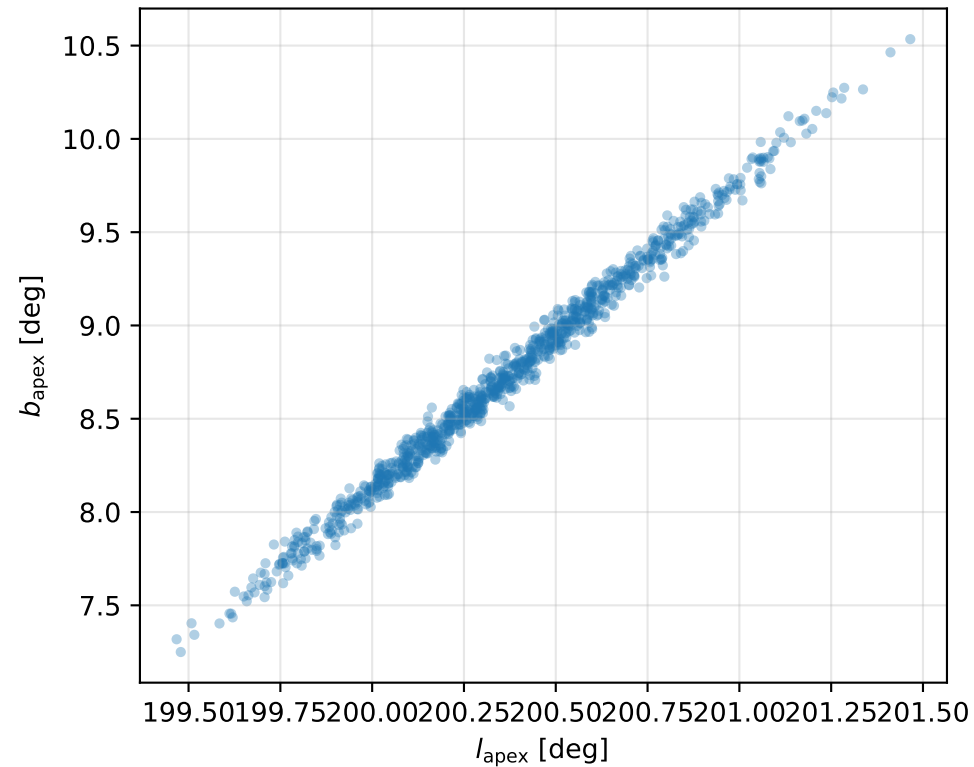

Pole covariance eigenvalue spectrum

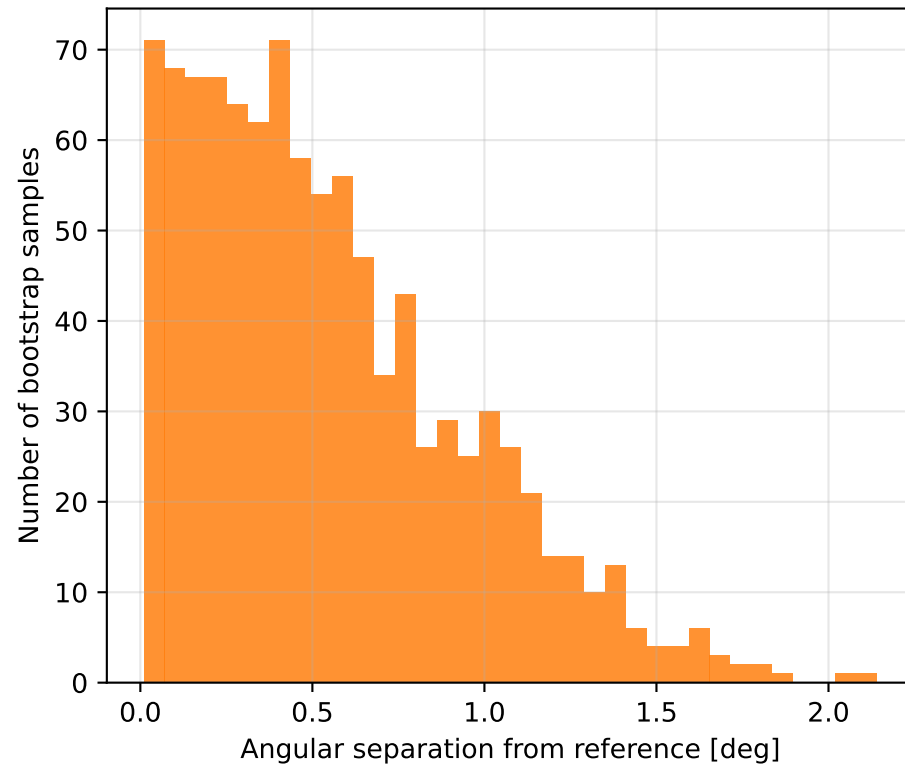

Comparison of apex estimators

Bootstrap apex cloud

Bootstrap angular uncertainty

Bootstrap residual stability
